

Howl at the Moon

Stevie Stone

My dogs all like to howl at the moon
(My dogs all like to howl at the moon)
All my dogs like to howl at the moon
Work coming in I might need 2 phones
Work coming in I might need 2 phones

Work coming in I might need 2 phones
Know we need the drop with the roof gone
When the time flow with the boots on
My shit's scorching hot, your shit is lukewarm
My shit 'bout to knock a Uncle Luke song
As soon as I get in, I put the Crew on
Yeah we too strong, yeah we too strong
I be smokin' all day, bitch I'm too gone
Yeah, yeah, it's that doldy
Lets hit pay only, it's my time, I don't need no roolly
Shorty think we close but she don't even know me
And the only time we talk is when she lonely, yeah
Yeah, and I can't let you in
You an angel when I live a life of sin
Cause I be with my howls when the sun goes down
You know dogs are a man's best friend
Yeah, yeah, yeah

Too my disguises another shed of blue
Long kiss, goodnight, I bid you how they do
I'm with my dogs and we all riding through
You know my dogs like to howl at the moon
My dogs all like to howl at the moon
At the moon, at the moon, at the moon, yeah
My dogs all like to howl at the moon
At the moon, at the moon, at the moon
Yeah, yeah, yeah, yeah

Work coming in I might need 2 phones
Know we need the drop with the roof gone
When the time flow with the boots on
My shit's scorching hot, your shit is lukewarm
My shit 'bout to knock a Uncle Luke song
As soon as I get in, I put the Crew on
Yeah we too strong, yeah we too strong
I be smokin' all day, bitch I'm too gone
Yeah, yeah, stare at the moon
Summer night in June
Usually with the goons
Got a queen at home to come to
She's a rose in the concrete
I see when she loom
Social butterfly that broke out of her cocoon
Shawty so evolved and she got it all
But she know it's too dangerous for her to get involved
But that don't ever stop her, she be trying to call
Even though she know I'm out here
Running with the dogs, yeah, yeah

Too my disguises another shed of blue
Long kiss, goodnight, I bid you how they do

I'm with my dogs and we all riding through
You know my dogs like to howl at the moon
My dogs all like to howl at the moon
At the moon, at the moon, at the moon, yeah
My dogs all like to howl at the moon
At the moon, at the moon, at the moon
Yeah, yeah, yeah, yeah
