

Keep My Name Out Your Mouth

Stevie Stone

Don't start nothing, won't be nothing
Put it on my momma got some zombies on the team on it
On the way to call it, it's the calling, eyes on the target
On the shot, pussy niggas on him
It's too late to justify, in your mind you feel the pride
Got that sickness, you's a pussy in your eye
You's a hater in disguise, you be acting like you riding, you be lying
You be hiding all your feelings, you a spy
Yelling fuck that nigga, But see the truth is he like you on the low though
Talked about it couple of times after the show though
Took a photo to brag to all his hoes though
You better stop boy
That y'all jockin' and better get your top saw
Sudden movements is enough to get you rocked boy
Learned on my own though, Strange Music guap boy

Watch that small talk and keep my name out your mouth boy
(Watch that small talk and keep my name out your mouth boy)
Watch that small talk and keep my name out your mouth boy
(Watch that small talk and keep my name out your mouth boy)
Mob with it, ugh-huh!
Watch that small talk and keep my name out your mouth
Keep my name out your mouth

Bloody
Swag Sauce dripping all spaghetti red
Got these niggas swoll like Tisha Campbell's head
Speaking of Campbell, now it's a soup kitchen
Niggas bumping their gums about me like some tooth's missing
Seriously funny, y'all Kevin Hart niggas
Bu you gon' learn today that Kutty's heart's bigger
Ears clearer, eyes better, great vision
To see that I'll make a pair of boots and belt up outta snake niggas
All that gobble gobble, gon' get you turkey's stuck
The only thanks I'm giving' gon be a murky brush
Swim with the fishes in the Missouri river
I call it muddy waters 'cause the blues it delivers
I'm amused when you bitches speak on a lucrative figure
All that yapping gon' get your face on the news in a minute
You ain't tough, you ain't street, you just a mouse boy
So go and get you a piece of this Swiss cheese and

Watch that small talk and keep my name out your mouth boy
(Watch that small talk and keep my name out your mouth boy)
Watch that small talk and keep my name out your mouth boy
(Watch that small talk and keep my name out your mouth boy)
Mob with it, ugh-huh!
Watch that small talk and keep my name out your mouth
Keep my name out your mouth
Keep my name out your mouth

What it do? Lil' buddy what it do?
Heard you like to talk about me when I'm in the Lou
Heard you got an issue running rappin' 'bout my biz
Here to show a sucka nigga what it is
There's a line in my pocket, a nine in my pocket

It's registered to me and I'm dying to launch it
You wanted my attention, now I'm here to get it poppin'
You bringin' all your homies, people runnin' back, action
ain't an option
I'm hot, I'm out just to get it
Shots called, he attack and everybody with him
Notified the precinct, penetrate the denim
Got a couple dollars so my lawyer monumental
It ain't nothing, shouldn't've said nothing
Poker face strong, all in, think I'm bluffing
Put a couple phone calls in, they'll erupt
Talkin' like your neck got a hole in, tell them niggas

Watch that small talk and keep my name out your mouth boy
