

Long Time Comin'

Stevie Stone

Uh huh, be the realest shit I ever wrote
Its been a long time comin, coming from nothing
Five up on this tracks here, turn into something
Story tellin my life, learn to keep it 100
You can like it or not, we runnin, we finally runnin

Even when they lash out, no one never ever back out
leave it on the floor before we past out
No excuses, I know I hit my team
We between, we just livin our dream
Like up on the road someone inner beams
Picture ourselves sometimes should here make believes
Maybe this meeting here was destiny
Yo when they buried us some Gs
Please remember when we didn't have no heat
Strangers sure would bring some currency
Right now, feelings is taking over me
Back against the wall, this is what we praying
Do it for mama Fritz, do it for emma gene
Do it for mama Jackson and do it for Mike and B
Shedding tears, these tears of joy, feel the poor since you can't ignore

Its been a long time comin, coming from nothing
Five up on this tracks here, turn into something
Story tellin my life, learn to keep it 100
You can like it or not, we runnin, we finally runnin

The magnitude that you can't ignore
Hard time, next, times so
In the studio I'm having a vision
Two sprays Cotton nigga livin
When I hit the stage, problems faded away!
Lookin at the boss, for better days
This be the realest shit I ever wrote
Tech and Travis follow days, just watch me cope

It's been a long time comin', comin' from nothing
Five up on this tracks here, turn into something
Story tellin my life, learn to keep it 100
You can like it or not, we runnin, we finally runnin

Even when they lash out, no one never ever back out
Leave it on the floor before we past out
No excuses, I know I hit my team
We between, we just livin our dream
Please remember when we didn't have no heat
Strangers sure would bring some currency
Right now, feelings is taking over me
Back against the wall, this is what we praying
It's been a Long Time Comin'
