Heavy in my city, I know politicians  
You can't take my picture, you need my permission  
Pull up in yo city, I need no permission  
Pull up, take yo pictures, I need no permission  
Heavy in my city, I know politicians  
You can't take my picture, you need my permission  
Pull up in yo city, I need no permission  
Pull up, take yo pictures, I need no permission

I pull up in yo city, I need no permission  
I pull up, take yo pictures, I need no permission  
I pull up in yo city, I need no permission  
I pull up, take yo pictures, I need no permission

Pull up in the city dolo  
Know an OG named Noble  
Strong ties much needed  
Deep-rooted that's global  
Bullshittin' with the OG's  
We laid back and we blowin'  
Captivated with the real niggas  
Hook up me to their soil  
Told me that I need a passport  
Hit the center, Doug got it next night  
Send a son a little care package  
Little Timmy got 'em quite a few likes  
Yella bone from the east side of the city with me for a few nights  
I been in it for a good minute, I been politickin' and the view nice  
Let me show you how I move heavy

Heavy in my city, I know politicians  
You can't take my picture, you need my permission  
Pull up in yo city, I need no permission  
Pull up, take yo pictures, I need no permission  
Heavy in my city, I know politicians  
You can't take my picture, you need my permission  
Pull up in yo city, I need no permission  
Pull up, take yo pictures, I need no permission

You cannot get no pager, unavailable  
Look like you got an issue, we could play it out  
The grain'll go against you, don't debate a boss  
You do not have permission, get you straightened out  
Talking pleasure, can't come to  
Half the time it get tossed up  
Me and OG bossed up  
Made niggas don't cost us  
I don't even really need permission  
Like a vacate, I'ma go there  
I can move around like I'm home there  
That my zone there, well-known there  
I can show you how to get heavy

Heavy in my city, I know politicians

You can't take my picture, you need my permission  
Pull up in yo city, I need no permission  
Pull up, take yo pictures, I need no permission  
Heavy in my city, I know politicians  
You can't take my picture, you need my permission  
Pull up in yo city, I need no permission  
Pull up, take yo pictures, I need no permission

I pull up in yo city, I need no permission  
I pull up, take yo pictures, I need no permission  
I pull up in yo city, I need no permission  
I pull up, take yo pictures, I need no permission
