You gotta know math if you wanna survive

When it comes to the zero, you will be a hero, zero times a number is zero

Now you're up to one. You got it done 'cause one times any number is just that number

Starting with the two, listen to the beat. Sing along and tap your feet

2x2 is always 4. Now you will learn some more

2x3 is 6. You can do some tricks

2x4 is 8. To school, don't be late

2x5 is 10. Don't be late again

2x6 is 12 or a dozen. Do your work and stop fussing

2x7 is 14. Don't like kids who are greedy or mean

2x8 is 16. You're the best rapping kid that I've ever seen

2x9 is 18. Rapping these facts is my dream

2x10 is 20. Yes, sure, that is enough money

3x2 is 6. You can do some tricks
