

# Rain Your Love Down

Stevie Wonder

Such a lovely world was made for you and me  
Wondrous life for us to taste, touch, smell, hear, and see  
But one glance from outside looking at our world state  
Clearly displays we don't appreciate it at all

Rain your love down won't you rain down your love  
Let it drench us like the sun from above

Such ability inside you and me  
Made to do anything and be all we can be  
But one bird's eye view at us does show, oh it shows  
That against God's Plan we've let it go, oh no

Rain your love down won't you rain down your love  
Let it drench us like the sun from above  
Rain your love down let it rain down today  
So that it may wash all our sins away

You'd think the signs would make a difference,  
Oh, make a difference

You'd think fire next time instead of rain  
Would cause us to make a change  
The world has gone insane

Rain your love down won't you rain down your love  
Let it drench us like the sun from above  
Rain your love down let it rain down today  
So that it may wash all our sins away, let it rain

Rain your love down let it pour on us, please  
Cleansing us from hunger, hate, war, and greed  
Rain your love down, won't you let it start over again  
So we can live up to your Master Plan

Rain your love down, oh won't you let it start  
Wash the wicked minds and the...  
I know they're sick, you know they're sick at heart, yeah  
Rain your love down won't you let it rain  
Rid this world of drugs, disease, crime, and pain

Clear our spirits give our minds new software  
With your lesson on honor, respect, trust, and care  
Rain your love down I beg for human sake  
For only you can get us out of this state

Rain your love down on all mankind  
Cause we are out of order and so out of line
