

## Come With Me

Stick Figure

Something's coming up over me  
And the sun is coming up already  
It's been three whole days since I've been asleep  
I couldn't tell you what's coming over me

Oh why can't I sleep  
Oh why can't I breath

The waves are crashing outside, my mind is so calm  
And all the pain I had, well it's all gone  
I got no reason to hide, no reason to go  
I got to take a step back, and take life slow

Oh won't you wait for me  
Oh won't you come with me

Remember those times when life was real  
We was sitting in the sand, got the ocean feel  
Take me back to those days of paradise  
When we laugh all day and sleep all night

Oh won't you come with me  
Oh won't you come with me  
Oh won't you come with me  
Oh won't you come with me
