

In This Love

Stick Figure

I've flown too close to the sun this time
I keep flying and I'm gonna get burned
I walk by the edge of the ocean and I
Look to the sky and then I watch this world turn

In this love, in this love
In this love, in this love

I feel the weight of the world on my shoulders
Our love it always stay the same
I don't believe all the things that they told us
It's love that makes us feel this way

In this love, in this love
In this love, in this love

I'm not ready to go
This world is not ready for me
The clock keeps spinning so slow
I guess we'll have to wait and see

In this love, in this love
In this love, in this love

Looking up, looking up, looking up now
Looking up as the sun it goes down
Looking up, things are looking up now

I've flown too close to the sun this time
I keep flying and I'm gonna get burned
I walk by the edge of the ocean and I
Look to the sky and then I watch this world turn

In this love, in this love
In this love, in this love
In this love, in this love
In this love, in this lov
