

One of Those Days

Stick Figure

I saw you standing there from across the room
Your eyes they locked with mine, I wanted to talk to you
I saw you smile at me, but I had to look away
I'd sing a song for you if I could find the words to say
I wish that I could find my loving lady,
I love you girl but this world is so damn crazy
I'd walk over over mountain tops and sail the ocean too
There ain't nothing girl, nothing I won't do for you

Foundation, good vibration
Good things come, come from inspiration
Foundation, good vibration
Good things come, come from inspiration
It's just one of those days
It's just one of those days

Life is an open road, everything just stop and go
Give me the green light, I just feel like
We running out of time but I'm not done chasing
Things fall in place when you stop racing
And here I stand alone, I'm just kicking stones
I got nowhere to go, I'm just breathing
Try to see there good things coming
I know there's love among us
I love the earth and sun and
The moon, the stars above us

When it's time to go, when it's all said and done
I'm not the only one who had a lot of fun
When I look around I see my reflection
Of me once upon a time, a time when I was young
There is this world out there, sometimes I just don't care
Love is in the air, can you feel it?
Lets go for a ride, lets spread the good vibes
Lets all get together, everything will be alright

One of those days, it's just one of those days
One of those days, it's just one of those days
One of those days, it's just one of those days
One of those days, it's just one of those day
