

## Rise Above

Stick Figure

Well give me one good reason why you fall into the hand  
Of a man who will tell you that you just don't understand  
Well easy come, and easy go  
Your traveling down the path that you know you shouldn't go

Four brothers who are growing up  
This is the style that is blowing up  
Reggae music always bring us up  
Blowing up, blowing up, yeah

Life is too short to do not what you love  
Taking a step back from reality and rise up above  
You coming around, you feel the sound  
Stand up to the one who's been keeping you on the ground

When your feeling misunderstood  
When your feeling like your no good  
You got no money but it's alright  
Feel the music, play it all night
