

## Who Needs Who

### Stick to Your Guns

Open the door and it never shuts  
This life is death by a thousand cuts  
To the ones, all they create  
No golden coins for an iron cage  
A lifetime of struggle, a moment to win  
Down for the count but this ain't the end  
Fighting for mine as hard as I can  
If I can struggle I know I can win

Never forget  
Who needs who  
You need us  
We don't need you

Who needs who

Never forget, never forget  
Who needs who  
You need us  
We don't need you
