

## Currents

## Still Corners

We're lost, fallen in the water  
We'll try to make it to tomorrow  
These lies  
They got us in a bad flow  
Our skin is shaking from the cold

Lies  
We're stuck in these currents  
Hear our cries  
We can't swim in these currents

We're gone  
Drifting on a black wave  
We'll try  
To make back some day

Cause lies  
We're stuck in these currents  
Hear our cries  
We can't swim in these currents

Won't go down and say  
It's because we cannot swim  
Lies  
We're stuck in these currents

Lies  
We're stuck in these currents  
Hear our cries  
We can swim in these currents

I'll go down and say  
It's because we cannot swim  
Lies
