

## Dreamhorse

### Still Corners

I only want to follow  
Safe and miss the hollow  
When I find the scene you're on

I defined a kiss my darling  
When we get these dreams on  
Making like we feel it

And now I find my days  
Just like a dream  
I left alive

And it's like a force on a winged horse  
A terrible beauty

And it's over  
Over
