

Mystery Road

Still Corners

It was a cold winter day
I was leaving home
Sticky city behind me
I was driving
There was nothing out there
But a feeling
Just two headlights
And an empty road

Running tonight
It's live or die
My heart racing
Like there's no tomorrow
Mystery road

It was getting late
No place to stop
There's something strange out there
In the dark
I saw a young man walking
Out on the road
But when I rubbed my eyes
He had turned old

Running tonight
It's live or die
My heart racing
Like there's no tomorrow
Mystery road
Mystery road

The shadows had grown
But it wasn't dark yet
Tried to keep it straight
Never know what's ahead
Hit a turn in the road
So I took it slow
Then I slipped away
On mystery road

Running tonight
It's live or die
My heart racing
Like there's no tomorrow
Mystery road

Running tonight
Mystery road
Running tonight
Mystery road
Running tonight
Mystery road
