

Drake

Still Woozy

All I want is to be happy
All I want is to be happy
All I want
All I want is love

All I get is another day
All I get is another day
That I can't
That I can't get out of

When I wake up slap my face
When I wake up far away
Now we're laid up, all ok
And we made up for today

All I want is to be laughing
All I want is to be laughing
With you one
With you one more time

But I know now I've been stupid
Just keep moving
That's what you said
And I will
And I will alright

When I wake up slap my face
When I wake up far away
Now we're laid up, all ok
And we made up for today
