

# Get Down

Still Woozy

(She wanna get, I wanna get it)

She's gonna break me  
But I don't give a damn right now  
She wanna get down  
I wanna get down  
We're gonna get down, so

She's gonna take me  
It ain't even a thing right now  
She wanna get down  
I wanna get down  
We're gonna get down, so

She gave me a look that made me sweat  
I think about it and I won't forget  
Your hips locked into mine  
And we're taking our time, yeah, so slowly

And then we get on the ATV  
I could feel you hanging onto me  
To the black sand beach of Santorini  
Like slow it

No way that I could ever hold back  
With you coming like that  
You coming like that

She's gonna break me  
But I don't give a damn right now  
She wanna get down  
I wanna get down  
We're gonna get down, so

She's gonna take me  
It ain't even a thing right now  
She wanna get down  
I wanna get down  
We're gonna get down, so

I could not think of going back  
Too late, too late, I'm on the track  
I'm gonna quit my job  
I hope you do too

I had you on the dance floor  
I swear, I swear, it was in the air  
Well, some things are just not fair

No way that I could ever hold back  
With you coming like that  
You coming like that

She's gonna break me  
But I don't give a damn right now  
She wanna get down  
I wanna get down

We're gonna get down, so

She's gonna take me  
It ain't even a thing right now  
She wanna get down  
I wanna get down  
We're gonna get down, so
