Window

Still Woozy

Uh, okay
Longer would you (Ooh)
Longer would you (Ooh)

If I got one thing right it was you and me
But I go in through the window so nobody sees

Pull me closer please (Longer)
I don't even need you to explain
How much longer will you (Longer would you)
Keep me on your chain (Yeah)

I'm running out of options (Okay)
You're running through my mind with a shotgun
I think she might be robbing, she can take what she want
I just wanna make you late, would you wanna waste that?
I know you like my goofy ass, how could you hate that
I see what's underneath and I love you more now
And now I know how (Yeah)

If I got one thing right it was you and me
But I go in through the window so nobody sees

Pull me closer please (Longer)
I don't even need you to explain
How much longer will you (Longer would you)
Keep me on your chain

Too bad it's good, or else I'd be gone
My down she cured
And then we go back to your place, don't lie
You wanna get high, so we gonna get high
And then I see a laugh on your face, so I might die

So I might die... so I might die...
If I got one thing right it was you and me
So I'll go in so nobody sees

Pull me closer please (Longer)
I don't even need you to explain
How much longer will you (Longer would you)
Keep me on your chain

How much longer?
