

Woopie

Still Woozy

(Why would you want me)

Why would you want me
Why would you care
Tell me you need it bad
Well I love to be your hair

Why would you want me
Why would you care
Tell me you need it bad
Well I love to be your hair

You don't run for me
You just come for me
Well I find
All of this is wonderful
I don't help the fool in my mind
I never know what's best for me
You're arresting me all the time
I thought we'd be over by now
But you don't have a clue or you're blind

Why the fuck would you come back
I never knew you like that
I never knew you like that
I never knew you'd come back
I never knew you like that
I never get it right

Why would you want me
Why would you care
Tell me you need it bad
Well I love to be your hair

Why would you want me
Why would you care
Tell me you need it bad
Well I love to be your hair

Well I complicate my day
You just took an edible
And now I'm the fool, okay
Love the way you give me shit
Like I can handle it always
Cookie cookie cookie goddamn you win
So I'll give in
But I still don't know

Why the fuck would you come back
I never knew you like that
I never knew you like that
I never knew you'd come back
I never knew you like that
I never get it right

Why would you want me
Why would you care

Tell me you need it bad
Well I love to be your hair

Why would you want me
Why would you care
Tell me you need it bad
Well I love to be your hair

You gave me
No reason why
You gave me

You gave me
No reason why
You gave me
