

Gasoline

Stillwell

I won't let you lead me down this road
A path of dissension
I'm a keep still with my guard up
As you cram for attention
Bloody tears of compassion
The light's not that bright
Step away from the embers
Wounds from a friend's knife

Let's add gasoline to the fire
Let it all go up in ball of flames
Let's add gasoline to the fire
Let it all go up in ball of flames

Laughing at the destruction
Full of disappointment
I began the inferno
Out of pure enjoyment
Black smoke in an instant
Inhale for the get high
I'm a dance on the fuego
Crawl from the ash and rise

Let's add gasoline to the fire
Let it all go up in ball of flames
Let's add gasoline to the fire
Let it all go up in ball of flames

Let's add gasoline to the fire
Let it all go up in ball of flames
Let's add gasoline to the fire
Let it all go up in ball of flames

Let's add gasoline to the fire
Let it all go up in ball of flames
Let's add gasoline to the fire
Let it all go up in ball of flames
