

## Little Star

Stina Nordenstam

Little Star  
So you had to go  
You must have wanted him to know  
You must have wanted the world to know

Poor little thing  
And now they know

Little Star  
I had to close my eyes  
There was a fire at the warehouse  
They're always waiting for a thing like this

Came driving from all over town  
For you  
Little Star

Laudamus adoramus te Domine  
Laudamus benedicimus Domine Deus  
Laudamus benedicimus Domine Deus  
cum Sancto Spiritu in Gloria Dei Patris

For you  
Little Star
