Little Star

Stina Nordenstam

Little Star
So you had to go
You must have wanted him to know
You must have wanted the world to know

Poor little thing And now they know

Little Star
I had to close my eyes
There was a fire at the warehouse
They're always waiting for a thing like this

Laudamus adoramus te Domine Laudamus benedicimus Domine Deus Laudamus benedicimus Domine Deus cum Sancto Spiritu in Gloria Dei Patris

For you Little Star
