

Conquer and Divide

Stitched Up Heart

You sit behind your walls
You're living in a madhouse
Treat us like animals
You're safe until the blackout
They call us radicals
But you're the ones that eavesdrop
We need an antidote
To make your fucking heart stop

They conquer and divide
This isn't a test, no
It's certain suicide
Engraved in our tombstone
You won't erase my mind
Mind, look in my eyes
The worlds on the brink of a heavy decline
It certain suicide

You're sicker than the wolves
You're teeth lock as they bite down
Are we the animals
You bleed our fucking veins out
We've reached the pentacle
We're breakin down the system
The final episode
'Cause we are the resistance

They conquer and divide
This isn't a test, no
It's certain suicide
Engraved in our tombstone
You won't erase my mind
Mind, look in my eyes
The worlds on the brink of a heavy decline
It certain suicide

(They conquer and divide)

They conquer and divide
This isn't a test, no
It's certain suicide
Engraved in our tombstone
You won't erase my mind
Mind, look in my eyes
The worlds on the brink of a heavy decline
It certain suicide
