Stokley

Vibrant diamonds on your skin
You wore nothing for us
Tonight is just for us
Bodies dripping like these candles
That I lit for us

We caught up in this
House could be on fire we wouldn't care
Silhouettes dance in the darkness defined by moonlight
Tomorrow we'll wake up still gone, still craving last night

You know coffee in the morning does me right
Gon' wake me up
Need a pick me up
Gotta fill it up
Love it when you give me
Coffee in the morning
Gon' wake me up
Need a pick me up
Gotta fill it up
Yeah you know I love my...

Black but far from bitter
I like it sweet
Sugar on me
Sip slow no need rush
Pour it on me
Give it to me
Do it to me
Ooh I want it while it's hot
Silhouettes dance with the shadows defined by sunlight
Today I woke up to breakfast in bed and I want a bite

You know that coffee in the morning does me right
Gon' wake me up
Need a pick me up
Gotta fill it up
Love it when you give me
Coffee in the morning
Gon' wake me up
Need a pick me up
Gotta fill it up
Yeah you know I love my...

I need a pick me up, pick me up
Love when wake me up wit it yeah
B4 I go I gotta have it
You already know and this is the way I see it

I need a pick me up, pick me up
Love when wake me up wit it yeah
B4 I go I gotta have it
You already know and this is the way I see it

When I wake up with you get my energy from you
I'm pressed over you like a vanity search
I'm checking what u do respect what u do

When I'm checking for u then my sanity hurt
Who gonna
Show me what you do when I'm not around
If u gonna, yeah
Show 'em what you do when I'm not around
Trust is a myth, loyalty's different
Know it's a woman that don't know the difference
Love isn't perfect, love is commitment
It may break your heart but it's not mint condition
Cut with precision, ain't with the faking
Word to my my turkey is bacon
Shooting my shot I'ma call u then kiss ya
And she know the tea that Folarin expresso, bless her
Can u wake me up (yeah) say it can be love (yeah)
No scandals but (yeah) making plans for us
Can you wake me up, can I pass this cup,
Put it down in LA and wake u up in New York like...

You know coffee in the morning does me right
Gon' wake me up
Need a pick me up
Gotta fill it up
Love it when you give me
Coffee in the morning
Gon' wake me up
Need a pick me up
Gotta fill it up
Yeah you know I love my

Coffee in the morning does me right
Gon' wake me up
Need a pick me up
Gotta fill it up
Love it when you give me
Coffee in the morning
Gon' wake me up
Need a pick me up
Gotta fill it up
Yeah you know I love my...
