

Passion like magnetic force
The sweetest love I ever had
Love just like when eagles soar
Then sweet turned to a sour patch

I was lightning you were thunder
Not over you wanna be under
Cause baby, you drive me roller coaster
Crazy rotation, can't take it
Dancing around it playing games, oh
Simon says, no Macarena
My intention is to take us back to love again

It's not just easy come easy go
It's a waterfall of pure emotion, baby, oh oh
Hypnotic patterns like kaleidoscopes
Don't let your love wash away
Let your love cascade

Solar flares ignite our tongue
We said shit that we never meant
A trigger pulls a smoking gun
Can we reverse the damage dealt?

I was lightning you were thunder
Not over you wanna be under
Cause baby, you drive me roller coaster
Crazy rotation, can't take it
Dancing round it playing games, oh
Simon says, no Macarena
My intention is to take us back to love again

It's not just easy come easy go
It's a waterfall of pure emotion, baby, oh oh
Hypnotic patterns like kaleidoscopes
Don't let your love wash away
Let your love cascade

We're dancin' around these emotions a waltz into a tango
Let's switch from a lemon to sweetness of a mango
This sweet love will always bring you back
Without you there's nothing left for me, ooh...

(Come on, baby, come on, baby...)

It's not just easy come easy go
It's a waterfall of pure emotion, baby
Hypnotic patterns like kaleidoscopes
Don't let your love wash away
It's not just easy come easy go
It's a waterfall of pure emotion, baby
Hypnotic patterns like kaleidoscopes
Don't let your love wash away
Let your love cascade...

(Come on, baby, come on, baby...)
