

Clouds

Stokley

Castles in the air
Sea from here to there yeah
Weightless atmosphere
Gravity's non existent
Oui mademoiselle
Floatin' carousels
Sippin' zinfandel
With parasols
If we're together

Nothing matters
You got me tip toeing on stars
It's infinite and beyond
Baby nothing matters
You make everything so pure
Like when the ocean meets the shore

Forget everything you think you know
Let's explore realities you don't
We found a dimension we can call home
Stay right here with me
Because girl you know that my basic instinct
Is to close the distance
I fall deeper into you
With you there's no rules
I hear cosmos callin'
One touch to make you glow
Sky looks like a thousand chandeliers

Nothing matters
You got me tip toeing on stars
It's infinite and beyond
Baby nothing matters
You make everything so pure
Like when the ocean meets the shore

Got me in the air like
(Aaa ya ya ya, aa ya ya)
In the air like
(Aaa ya ya ya, aa ya ya)
...

Nothing matters
You got me tip toeing on stars
It's infinite and beyond
Baby nothing matters
You make everything so pure
Like when the ocean meets the shore

Nothing matters
You got me tip toeing on stars
It's infinite and beyond
Baby nothing matters
You make everything so pure
Like when the ocean meets the shore
