

Just another rainy night, I told you  
It's raining all the time, raining all the time  
Guess the story of our love is over  
The sun is never gonna shine, never gonna shine

Just another rainy night, I told you  
It's raining all the time, raining all the time  
Guess the story of our love is over  
The sun is never gonna shine, never gonna shine  
(Never)

Our love's like a stormy night  
I'm the thunder and you're the lightening  
All the worlds and years go by  
And we're back here every time

Just another rainy night, I told you  
It's raining all the time, raining all the time  
Guess the story of our love is over  
The sun is never gonna shine, never gonna shine

Just another rainy night I told you  
It's raining all the time, raining all the time  
Guess the story of our love is over  
The sun is never gonna shine, never gonna shine  
(Never)

Our love leaves an aftermath  
Forever debris laying in our path  
Our love needs an epitaph  
Reading, lovers that just won't turn back

Just another rainy night, I told you  
It's raining all the time, raining all the time  
Guess the story of our love is over  
The sun is never gonna shine, never gonna shine

Just another rainy night, I told you  
It's raining all the time, raining all the time  
Guess the story of our love is over  
The sun is never gonna shine, never gonna shine

Just another rainy night, I told you  
It's raining all the time  
The sun is never gonna shine  
(Never)
