

Lost

Stokley

Chosen man, stolen land
Mama got addicted
Daddy's been convicted
The family facing eviction
Welfare public house
Daddy's got a move out
Who's gonna take care of the child
He's adopted by the streets now

I just came to let you know
You can win
It's etched in ur DNA
Ur a King
There is strength in your history
Persevere
Stay woke and keep waking up oooo

I think I mighta lost my way
I think u mighta lost ur way
Lost ur way home
I know I gotta find my way
I know u gotta find ur way
Find our way home, we lost our way home

She changed her name, from the queen of bitch
Took off her crown I'm down for anything to get rich
I can see you, that mask is see-through
Fashionova can not change it
Make up cannot hide what's deep inside is planted in your soul
I'm just trying to tell you to forgive yourself and let it go
Hoping that you hear me clear
Only said it because I care

I just came to let you know
You can win
It's etched in ur DNA
Ur a Queen
There is strength in your history
Persevere
Stay woke and keep waking up oooo

I think I mighta lost my way
I think u mighta lost ur way
Lost ur way home
I know I gotta find my way
I know u gotta find ur way
Find our way home, we lost our way home

Ain't talking about a piece of land where you can go
I'm talking bout peace in ur soul
Trust that everything is gonna be alright
The mighty orchestrator said so
I ain't talking about a piece of land where you can go
I'm talking bout peace in ur soul
Trust that everything is gonna be alright
The mighty orchestrator said so

I think I mighta lost my way
I think u mighta lost ur way
Lost ur way home
I know I gotta find my way
I know u gotta find ur way
Find our way home, we lost our way home
