Stokley

It's been a while since we got up close and personal  
'Cause you work and you're corporate  
And me rocking my shows  
See, I recall you saying your body  
You can't wait to share  
And I will be wearing nothing  
But God's underwear

(Just walk, just talk)  
With me, with me, let me show you, baby  
(Just walk, just talk)  
Won't you get in this bed and next to me

Girl, I want you (Now)  
Wanna feel you (Now)  
Wanna touch you now, now  
(Now)  
You say you're aching, don't (Fight it)  
I can heal it just (Right)  
Let it happen tonight, right  
(Now)

I wear this armor over my heart  
Out in the streets  
Can't wait to take it off  
And wrap up with you in these sheets  
No more worries, baby  
Got my popularity  
'Cause you got my heart locked down  
And I don't wanna be free

(Just walk, just talk)  
With me, with me, let me show you, baby  
(Just walk, just talk)  
Won't you get in this bed and next to me

Girl, I want you (Now)  
Wanna feel you (Now)  
Wanna touch you now, now  
(Now)  
You say you're aching, don't (Fight it)  
I can heal it just (Right)  
Let it happen tonight, right now

Girl, I can't take it no more  
There can't be no more delays  
No more conversations with words  
The only sound that I make  
Will be me calling your name, yes

Girl, I want you (Now)  
Wanna feel you (Now)  
Wanna touch you now, now  
(Now)  
You say you're aching, don't (Fight it)  
I can heal it just (Right)  
Let it happen tonight, right
