

She...

Stokley

She gives me life
When I look in her eyes
Each and every time that she smiles
And a look can be measured
Every day it gets better
Kinda like the finest of wine
If you could hear her talk
You want to listen more
Just in the way she walks
You know the queen is her
Sweetest disposition its uniqueness
She gives sexy more meaning
Without even trying she's breathing

And all I am
Is because of her

She...
Is a queen of mine
She...
Perfectly designed
She...
Without even trying
Her lips her eyes they drive me crazy
She...
She be building me up
She...
Then be loving me down
She...
Such a naughty girl
But she's such a freakin' lady

She's the deep end
She's my good friend, my lover
She's my ocean
This lady adds to my fruition
She...
She be building me up
She...
Then be loving me down
She...
Such a naughty girl
But she's such a freakin' lady

She likes to swim in the deep end
Never mind an apprehension
She likes the loving long
So I weave in it like an extension
She wants to shower me
(Said) all she needs is access
(So) I gave her every key
(Yeah) even backstage passes
I cannot lie, why would I try, to ever deny
Forever she's mine, forever she's mine, and I mean that
She found a way through my defense
With her are all of my secrets
I'm living better now

Because she give's my life a little more reason

And all I am
Is because of her

She...
Is a queen of mine
She...
Perfectly designed
She...
Without even trying
Her lips her eyes they drive me crazy
She...
