

# Anyone

Stone Broken

Telling me right from the start  
That this life would be so hard  
Growing older, drift apart  
And if there's anything you gotta know  
Anywhere you wanna go  
I think you should know

I'll do anything to be with you tonight  
Oh, baby  
I'll do anything to be by your side  
Oh, baby  
I'll do anything every single night  
If I can be inside your arms  
It could have been anyone

Everything you've done so far  
Know exactly who you are  
Stepping closer to my heart  
And if there's anything you gotta know  
Anywhere you wanna go  
I think you should know

I'll do anything to be with you tonight  
Oh, baby  
I'll do anything to be by your side  
Oh, baby  
I'll do anything every single night  
If I can be inside your arms  
It could have been anyone

I think you should know  
I think you should know  
It could have been anyone

I think you should know  
I think you should know  
It could have been anyone

I'll do anything, oh  
I'll do anything to be with you tonight  
Oh, baby  
I'll do anything to be by your side  
Oh, baby  
I'll do anything every single night  
If I can be inside your arms  
It could have been anyone
