

Follow Me

Stone Broken

He's running back to his hideaway
So everything is clear in his mind
He always told me to stay away
But didn't give any reason why
I didn't really understand anyway
But I was always willing to try
I hope he's finally going to say
I'll try to get him back here in time
Every time you run away
Every time you leave

Only way to get up, only way to get out
Hold it out on me (hold it over me)
Only way to get up, only way to get out
Hoping you will see (hoping you will be)
Look and you'll see what you want fall apart
It's the way that you feel, it's the way that you are
Only way to get up, only way to get out tonight
Is follow me

I wasn't giving a piece of me
I'm not about to just step aside
He's standing right there in front of me
Wonder if he's gonna decide
If he really wanted to run away
Something tells me he would deny
Everything that he wants to say
He keeps it all bottled in side
Every time you run away
Every time you leave

Only way to get up, only way to get out
Hold it out on me (hold it over me)
Only way to get up, only way to get out
Hoping you will see (hoping you will be)
Look and you'll see what you want fall apart
It's the way that you feel, it's the way that you are
Only way to get up, only way to get out tonight
Is follow me

Only way to get up, only way to get out
Hold it out on me (hold it over me)
Only way to get up, only way to get out
Hoping you will see (hoping you will be)
Look and you'll see what you want fall apart
It's the way that you feel, it's the way that you are
Only way to get up, only way to get out tonight
Is follow me
