

## Let Me Go

Stone Broken

I try to do it but you just won't leave me alone  
I'll think of something just to answer your call  
'Cause you're careful you don't, you can leave but you won't let me go  
You think it's easy just to gain some counter-control  
I'm running faster making sense of it all  
'Cause I would if I could, and I think that you should let me go

I'll be wasting time, with you by my side  
'Cause nothing turns out right  
I'll be wasting time

You realize it's like a story that's already been told  
Not giving up but I'm not ready to fold  
'Cause you're careful you don't, you can leave but you won't let me go  
The situation is the worst that I've ever known  
You're seeing things that I could see on my own  
'Cause I would if I could, and I think that you should let me go

I'll be wasting time, with you by my side  
'Cause nothing turns out right  
I'll be wasting time, and I need to go 'cause I'm

Waiting for the day, for things to go my way  
Can't you see it's a part of me  
Don't wanna hear you say  
You've seen it all before, and you don't wanna see no more  
And if you see then you will believe  
We have got it all

I'm waiting for the day  
For things to go my way  
Can't you see it's a part of me  
Don't wanna hear you say  
You've seen it all before, and you don't wanna see no more  
And if you see then you will believe  
We have got it all
