

## Save Tomorrow

### Stone Broken

You say you want me when they're not around  
But you're picking me up just to throw me down  
Feels like there's something you've taken from me  
You're calling me up for another round  
You're taking your swing and I hit the ground  
It all means nothing when you're making me leave  
I'm waiting for someone, someone to help me

Oh I really can't stay  
You only come back when the other ones away  
No its never too late, everything can change if you're giving me the same  
Lead blind, I will follow  
Leave behind, save tomorrow

I'm looking for something that I've never found  
Everything changes when you kick me out  
I'm giving no longer I'm making you see  
You're living a lie cause you wanted more  
Take what you want but you can't have it all  
Nothing changes till you're leaving with me  
I'm waiting for someone, someone to help me

Yeah  
Oh I really can't stay  
You only come back when the other ones away  
No its never too late, everything can change if you're giving me the same  
Lead, blind, I will follow  
Leave behind, save tomorrow

Leave, I've waited so long and I'm finding it hard to breathe, anymore  
Leave, I've waited so long and I'm finding it hard to believe, anymore  
Oh I really can't stay  
You only come back when the other ones away  
No its never too late, everything can change if you're giving me the same  
Lead blind, I will follow  
Leave behind, save tomorrow

Save tomorrow  
Save tomorrow  
Save tomorrow
