

# The Only Thing I Need

Stone Broken

I think back to the old days  
When the days were long and the drinks would follow  
I laid back in the sun rays, with my best friend in my arms  
Our last summer holiday  
If I could do it again then I'd go tomorrow  
The places that we've been, I would do it all again, ohhh

Every time you ask to come around  
Every time you pick me off the ground  
Lift me up when I was feeling down  
Then I realized, closed my eyes to see  
It's the only thing I need, ohhh  
It's the only thing I need

We spent most of our time  
Thinking about what our dreams were made of  
We spend a lifetime just picking all our plans  
Stay up until the sunlight  
Just walking around until our feet start aching  
Hanging with our friends  
And I hope it never ends, ohhh

Every time you ask to come around  
Every time you pick me off the ground  
Lift me up when I was feeling down  
Then I realized, closed my eyes to see  
It's the only thing I need

And I can make it  
And the friendship never faded  
I knew if we tried, you were always by my side  
It felt so overrated  
And got so complicated, in time

Every time you ask to come around  
Every time you pick me off the ground  
Lift me up when I was feeling down  
Then I realized, closed my eyes to see  
It's the only thing I need

(Every time you ask to come around)  
Ohhh, it's the only thing I need  
(Every time you pick me off the ground)  
Yeah, it's the only thing I need  
(Lift me up when I was feeling down)  
Ohhh  
Then I realized, closed my eyes to see  
It's the only thing I need
