

## Breakdown

### Stone Gods

My situation's vacant now  
And I'm sleeping on my own  
Money can take me away from here  
But I don't want to live on my own

It seems like only yesterday  
We had it all, you threw it all away  
We're going to cause a nervous breakdown here

Baby, I've had enough of falling apart  
I know this rain won't last  
I've learnt how to deal with this breakdown  
I think I'm going out tonight

I've wasted too much time on you  
And now I'm living for myself  
I'm brushing my teeth, I'm combing my hair  
I'm phoning the boys, I'm out of here  
It's opening time again

It seems like only yesterday  
We had it all, you threw it all away  
You ain't going to cause me a nervous breakdown here

Baby, I've had enough of falling apart  
I know this rain won't last  
I've learnt how to deal with this breakdown  
I think I'm going out tonight

I'm going out tonight, tonight, tonight

Baby, I've had enough of falling apart  
I know this rain won't last  
I've learnt how to deal with this breakdown  
I think I'm going out tonight

I've had enough of falling apart  
I know this rain won't last  
I've learnt how to deal with this breakdown  
I think I'm going out...tonight

Ooo yea, I think I'm going out tonight  
Oh yea, I think I'm going out tonight
