

# Burn One Turn One

Stone Sour

When the going gets tough the tough become an addict  
Buried down hard on a horrible line  
Demonic by dawn, lead me to the attic  
I don't wanna be dead but I'm barely alive

So settle up mother, join the schizophrenic  
It's a goddamn shame what you're doing to me  
Giving up ghosts, taking all the credit  
Another fine job, just abandon the dream

I can't decide whichever one is better  
Undefined, you've gotta spell it out  
Why am I continuing to wither  
I'm into it, I'm into it

I don't need information  
I don't need irritation

Underneath the fog is just another killer  
Reliable amalgam with a comical phase  
Where do I stop? God, I sound bitter  
Forget about the innocent, and go to your cage

Here we go again, simple motherfucker  
Who is out of this world and into the kink  
Keep it in your pants, can I get an amen?  
Don't even bother 'cause they tell you what to think

Decide whichever one is better  
Undefined, you've gotta spell it out  
Why am I continuing to wither  
I'm into it, I'm into it

I don't need information  
I don't need irritation

Just once I'd like to know  
Where the pain, the shame and the spirit will go  
Looks like I'm here to stay  
Another bloody mess who's willing to be saved

I can't decide whichever one is better  
Undefined, you've gotta spell it out  
Why am I continuing to wither  
I'm into it, I'm into it

I don't need information  
I don't need irritation

Just once I'd like to know  
Where the pain, the shame and the spirit will go  
Looks like I'm here to stay  
Another bloody mess who's ready to be saved

Who's gonna save me?  
Who's gonna save me? Oh  
Who's gonna save me?

Who's gonna save me?
