

## Covetous Me

Stone Sour

C'mon!

I have nothing for you, it's just another ploy  
Bring your love to my lips, I care to be your toy

You see nothing new  
You see nothing true  
You have nothing too  
And if I had my way I'll have you too

Now before I take you, you've got to come to me  
Realize you're fatal, constrict to set you free

You see nothing new  
You see nothing true  
You have nothing too  
And if I had my way I'll have you too

Give me what I need to have  
Have you nothing left to give?  
Give me what I need to have  
Have you nothing left to give?  
Give me what I need to have  
Have you nothing left to give?  
Give me what I need to have  
Have you nothing left to give?

Give me what I need to have  
Have you nothing left to give?  
Give me what I need to have  
Have you nothing left to give?  
Give me what I need to have  
Have you nothing left to give?  
Give me what I need to have  
Have you nothing left to give?
