

# Dead Weight

Stone Sour

Come on!

You help me survive, you're the reason I'm alive  
Speak softly, cyanide passed from your mouth into mine  
Your breathing sounds like the sickest music playing backwards in my head  
Contagions, so hellacious  
You can't find the words, so you scream instead

This lifeless ordinary  
My righteous unsuspecting  
I have a secret, you are a dichotomy

What won't kill me makes me  
What won't love me hates me  
What won't kill me dies  
Come on!

You could help me hide, you could keep me inside  
Heartbroken, petrified  
What am I supposed to do if you don't try?  
Mad symmetry, senseless poetry  
Laying naked on my bed  
Contracted and frustrated  
You won't say a word and your eyes are dead

This lifeless ordinary  
My righteous unsuspecting  
I have a secret, you are a dichotomy

What won't kill me makes me  
What won't love me hates me  
What won't kill me dies  
What won't kill me makes me  
What won't love me hates me  
What won't kill me dies

The whole fucking world's against us dude, I swear to God

Do what I wanna do (Say what I wanna say)  
Look how I wanna look (Write when I wanna write)  
Act how I wanna act (Scream when I wanna scream)  
Have anything I want (Think it's impossible)  
Love who I wanna love (Hate who I wanna hate)  
Think when I wanna think (Stay when I wanna stay)  
Keep everything I got, talk when I wanna talk shit  
Get away from me

Weight!  
Weight!

I've never known anything, empty, shattered, nothing  
I've never known anything, never did, never will  
All that you know and all that you feel  
And all that you see and all that you hate  
These are the questions why  
All you gotta do is die

Weight!  
Weight!

Who spits in my eye, who thinks they know my spite  
This sustained, so cut your throat in disgusting lies  
Don't take what's mine, all I have's inside  
Rock revolution revolting, state your pride

Weight!  
Weight!

Now as we fight into this bleeding room  
I drink my fill of the agony, spilled from the womb  
My eyes, in the dark I have seen images of my path in ashes  
The room was burnt, like the fresh field on fire  
In the dark as the vengeance crashes

Weight!  
Weight!

All of this pushes me into isolation  
I got the fear and hate, all the things I can't relate to  
I am an island floating in a sea of shit, so  
Alone and nearly drowning, I could care less, I am alone

Weight!  
Weight!

I know nothing inside your eyes  
Pull them out and bleeding  
I'm what you don't  
I'm what's up, now you feel, what's up, now you feel  
You get what you want now

Weight!  
Weight!

Fuck how I wanna fuck, 'cause I don't give a fuck  
Fuck what you want, fuck what you want  
Suck it if I want it sucked  
You better suck me, your filthy mouth is fucked  
Fuck you, I'm like a renegade, get the fuck up  
Now let go of you, you better blow me  
Fuck you'll be dying now, fuck you, aw man you ain't nothing now
