

# Guilty

Stone Temple Pilots

Spread the news don't you feel much better  
The cenacles are afraid to die  
What's the truth but an open letter  
By the clowns soaked in pesticide

Realize  
You're gonna pay the price  
You're gonna pay tonight

Some don't but to have is better  
I got lost there along the way  
I don't care for the change in weather  
I let go to come back again  
Realize  
I'm guilty in my ways

Heard the news and it ain't much better  
The innocent try to stay alive  
Every time there's a real go getter  
Falling down in the well that's dry

Realize  
You're gonna pay the price  
You're gonna pay tonight

Some don't but to have is better  
I got lost there along the way  
I don't care for the change in weather  
I let go to come back again  
Realize  
I'm guilty in my ways
