

## Only Dying

Stone Temple Pilots

My life is over  
Over since the night she died  
I sit, I sigh, I weep  
I'm dying, dying, dying in deep pain

This time it'll make a difference now  
This time it'll make a difference now  
This pain, I think it only gets deep regret  
And where I'm going I don't know now

Shattered  
Somebody help me now  
My only exit is a one way out of here  
I've been shattered  
Somebody pull me out  
I'm only dying, I'm only dying

This time it's over, over since the night she died  
I sit, I sigh, I weep  
I'm dying, dying, dying in deep pain

This time it'll make a difference now  
This time it'll make a difference now  
This pain, I think it only gets deep regret  
And where I'm going I don't know now

Dear God, I'll make a change for the better  
My life you can spare till tomorrow, I know

Shattered  
Somebody help me now  
My only exit is a one way exit out of here  
Can't you see that I'm shattered  
Somebody pull me out  
I'm only dying, I'm only dying
