

# Roll Me Under

Stone Temple Pilots

Do you believe in something beautiful  
Between chaos and the light  
You gave it all for something you once sold  
The truth be told you lied

If it's the taste you remember  
You may not share in this sweet delight  
Yeah we can live forever  
If there's a time we can get it right

Roll me under, I'll pull the trigger for ya  
Do with me what you will  
Hold me under, the water running over  
Do with me what you will

Are you receiving nothing once again  
Is there shame for what's been done  
It screams so loud that you can't begin  
'Cuz you're always on the run

If it's the taste you remember  
You may not share in this sweet delight  
Yeah we can live forever  
If there's a time we can get it right

Roll me under, I'll pull the trigger for ya  
Do with me what you will  
Hold me under, the water running over  
Do with me what you will

Roll me under, I'll pull the trigger for ya  
Do with me what you will  
Hold me under, the water running over  
Do with me what you will  
Do with me what you will
