

Afraid Of Love

StoneBank

I'm here, I'm gone
I want to walk away, then run away
'Cause I won't let you in, yeah
Afraid to fall
Know that you're wanting more, you're longing for
To know me deep within

I'm too afraid you're gonna let me down
I've been here before and never worked it out
So I blame myself, this is what I do
And if I don't let you in, I can't put the blame on you
I'm just afraid of love

I'm just afraid of love

I'm here, I'm gone
I want to walk away, then run away
'Cause I won't let you in, yeah
Afraid to fall
Know that you're wanting more, you're longing for
To know me deep within

I'm too afraid you're gonna let me down
I'm just afraid of love

I'm just afraid of love

I'm too afraid you're gonna let me down
I've been here before and never worked it out
So I blame myself, this is what I do
And if I don't let you in, I can't put the blame on you
I'm just afraid of love
I'm just afraid of love
I'm just afraid of love

I'm just afraid of love

I'm just afraid of love

I'm just afraid of love

I'm too afraid you're gonna let me down
I've been here before and never worked it out
