

What's Going Down

StoneBank

Walk in the rave, now check this
Got one more for the setlist
Walk in the spot and I jump on track
Know who the best, know who the best is
Walk in the rave, now check this
Got one more for the setlist

Tell me what's going down
I can't stand it when you're so shut down
But now I want more, more
Tell me what's going down
I can't stand it when you're so shut down
But now I want more, more
Now I want more, more
Now I want more, more
Now I want more, more

Tell me what's going do-do-do-down

Walk in the rave, now check this
Got one more for the setlist
Walk in the spot and I jump on track
Know who the best, know who the best is

Tell me what's going

Tell me what's going down
I can't stand it when you're so shut down
But now I want more, more
Now I want more, more
Now I want more, more
Now I want more, more

Walk in the rave, now check this
Got one more for the setlist
Walk in the spot and I jump on track
Know who the best, know who the best is
Walk in the rave, now check this
Got one more for the setlist

But now I want
But now I want
But now I want
Tell me what's going down

Tell me what's going down
I can't stand it when you're so shut down
But now I want more, more
Now I want more, more
Now I want more, more
Now I want more, more
