Woi, I been around the world  
And I never, never seen no one with such a beauty  
When me look inna your face  
Your pretty pretty face girl  
You be my Cupid

You dey kill dem slowly  
Fly you around the world  
And post it pon story

Hi my lover!  
Oh, say you're my best friend, oh  
Still your lady  
Even when you're not here

It's easy to love when you got time for me, baby  
And I see you  
Got you  
On and on-on  
One day you go love  
Right now you go ride my way  
Will you be home today?  
'Cause I can't hide my pain  
Still your reason to love another day  
The things you say  
So I pray  
For you dey in control, na-na

You got a pretty body  
You dey kill dem slowly  
Fly you around the world  
And post it pon story  
Girl your pretty body  
It dey kill dem slowly, yeah  
Na you dey in control  
Mmhmm  
(Na you dey)  
Na you dey in control  
(Na you dey)  
Na you dey in control  
Come take over di whole wide world

You got a pretty body  
You dey kill dem slowly  
Fly you around the world  
And post it pon story  
Girl your pretty body  
It dey kill dem slowly  
Na you dey in control
