Stonebwoy

Eh yeah, e yeah
Ah, ah, ah
Eh yeah, e yeah

Into the future with you
And me nah go leave you at the end of the road
Gimme your love and you know it's safe
Baby, never listen to what them say, ay
Into the future with you
And me nah go leave you at the end of the road
Gimme your love and you know it's safe
Baby, never listen to what them say, ay

Me give her something way dey sweet and ginger
She never getting mad and sicker
She call me every morning, say she tired of the mac and cheese
Wanting more of the gizzard
Well a one time touch and she already fainting
All them time we be participating
She never know what I'm anticipating
The mission is her heart for the taking, uhh
Me a watch you long time
I dey see you for dream o
It no be one time
Baby I want to go

Into the future with you
And me nah go leave you at the end of the road
Gimme your love and you know it's safe
Baby, never listen to what them say, ay
Into the future with you
And me nah go leave you at the end of the road
Gimme your love and you know it's safe
Baby, never listen to what them say

Me nah go
Me nah go
Me nah go leave you girl
Say me a go
Me a go
Me, I'm gonna be your world, girl
No other person

A go love you better than you a blessing
Physically you are fit, your thing amazing
Nah look further, done with the searching
Me a watch you long time
I dey see you for dream o, it no be one time
Baby I want to go

Into the future with you
And me nah go leave you at the end of the road
Gimme your love and you know it's safe
Baby, never listen to what them say
Into the future with you
And me nah go leave you at the end of the road
Gimme your love and you know it's safe

Baby, never listen to what them say

Me nah go

Me nah go

Me nah go leave you, girl

Say me a go

Me a go

Me, I'm gonna be your world
