

Aviator

Stoney LaRue

Like a cross wind blowing on a FM road
Offer me direction cause I just don't know
Gotta follow that dust to see where it goes
I just gotta get off this old FM road

It's easier to do when you ride downwind
And who knows if they'll ever come back again
I like the way these Aviators shine
They'll never know where this road will wind, will wind

Well the boys used to play at the baseball yard (the boys used
to play at the baseball yard)
Yeah, always stole the bases that they ran so hard (the boys ru
nning and they ran so hard)
Long before anybody ever stole their hearts (the boys used to p
lay at the baseball yard)
Long before anybody ever tried to steal their heart ([?] they p
lay so hard)

It's easier to do when you swim down stream
Little less about you, a lot more about me
You like the way these Aviators shine
They're just something to hide behind, hide behind

It's easier to do when you ride downwind
And who knows if they'll ever come back again
I like the way these Aviators shine
They'll never know where this road will wind

It's easier to do when you swim down stream
Little less about you, a lot more about me
You like the way these Aviators shine
They're just something to hide behind, hide behind

Like a cross wind blowing on a FM road (like a cross wind blowi
ng on a FM road)
You gotta follow that dust to see where it goes
