

Easy She Comes

Stoney LaRue

Well, Sammy was a-rollin' and he was ridin' so high
They looked up and luck had passed him by
Went on down, dark side of the road
It's a lonely town and I guess he oughtta know

It's a hard life, we're all goin' through it
Tryin' to make sense of what I don't know
But it's all right, there ain't nothin' to it
Easy she comes and easy she goes

Way back in one December, I was feelin' so cold
Couldn't make a livin', there was nothin' I could hold
Sun came runnin', like reachin' for air
There's no turnin' back and no forgettin' I was there

It's a hard life, we're all goin' through it
Tryin' to make sense of what I don't know
But it's all right, there ain't nothin' to it

Easy she comes and easy she goes

Well, there ain't no denyin' the weight of this world
Listen to the band 'til the last song's heard
Keep ridin' the wave, reachin' the shores
We've all got it made, even though we've heard before
It's a hard life, we're all goin' through it
Tryin' to make sense of what I don't know
But it's all right, there ain't nothin' to it
Easy she comes and easy she goes

It's a hard life, we're all goin' through it
Tryin' to make sense of what I don't know
But it's all right, there ain't nothin' to it
Easy she comes and easy she goes

Yeah, easy she comes and easy she goes
Easy she comes
