

## Us Time

Stoney LaRue

You look good in that dress  
Love the way you've done you hair  
Yes girl I'm impressed  
At the whole sight of you standing there  
I got in mind a special night planned for the two of us  
Taking the time to find a place where we can laugh and let up

I'm needin' some you  
Having a drink  
Shootin' the breeze  
Just being around you  
And a joke to make you smile  
I'm needin' some me acting a fool  
Trying to impress you  
It's time for some us time

I knew you'd like it here  
Oh baby I love it when you let loose  
Just a little champagne on ice  
Put us both in the mood  
I got a place just down the road where we can watch the sunrise  
And after a night of lovin' on you I love that look in your eyes

I'm needing some you  
Having a drink  
Shooting the breeze  
Just being around you  
And a joke to make you smile  
I'm needing some me acting a fool  
Trying to impress you  
It's time for some us time

Needing some you having a drink shootin' the breeze  
Baby just being around you  
And a joke to make you smile  
I'm needing some me acting a fool  
I was just trying to impress you  
It's time for some us time  
It's time for some us time  
It's time for some us time

You look good in that dress  
I love the way you've done your hair
