

Lock Down

Stooshe

Shut down every time I try to speak
I ain't taking shit anymore
Long time coming but I'm breaking free
Watch me now kicking down doors
Suffocating hands all over me
I can feel you slowly chocking me
Tired of all your insecurities
I don't give a dam anymore

I could see it in your eyes
Won't stop till you get your prize
Love the goods your after gold
You want it all

Damn
Somebody better call the police
Got me begging for an early release
Ooh you had me on lock down
Ooh you had us all lock down
Damn
Got me tied up on a leash
Made sure that I would never leave
Ooh you had me on lock down
Ooh you had us all lock down

Back down bitch ya bout to cross the line
I'm the only girl they ll be calling
Trust in you I must of lost my mind
And they ll forget your name by the morning
Smothering your lies all over me
Crazy eyes are slowly burning me
Feels so good I gotch you out my life
Now watch me climb higher as ya falling

I could see it in your eyes
Won't stop till you get your prize
Love the goods your after gold
You want it all

Damn
Somebody better call the police
Got me begging for an early release
Ooh you had me on lock down
Ooh you had us all lock down
Damn
Got me tied up on a leash
Made sure that I would never leave
Ooh you had me on lock down
Ooh you had us all lock down

They got me begging
They got me begging release
I know whats better for me
