

## Somewhere

Stormwitch

Lonely the beach was lying  
Golden fades the sun  
All his dreams, all hope was gone  
Since he saw her dying  
He can't find no more  
Peace of mind - a light behind the door  
He loses off the string  
And reads, without his heart  
"I chose your life - that's my part  
You want everything  
But you can't see the signs"  
He could read between the lines  
Somewhere we'll meet again, I know  
Somewhere, you'll take my hand  
Somewhere we'll meet again, I know  
Somewhere, far away, there is a land  
"We've just borrowed time  
Now listen, what I'll say  
Live rejoicing every day  
Fulfill the hope of mine  
And go just your own way  
We will meet again someday"  
[Chorus]
